DIMA SIDE TABLE

\$3,480

DESCRIPTION

Part of the Dima Collection, this plate combines innovation and tradition in a piece of superb expressive uniqueness. This sculptural object of functional decor features linear bronze legs that support a square top in which solid and cut-out brass inserts interact with the "cementine" tiles in an interplay of diagonal volumes for a sophisticated sense of movement. This table is entirely crafted by hand, representing an unparalleled example of exquisite manufacturing for the modern home.
