DINING CHAIR #3

\$970

DESCRIPTION

A classic chair revisited with contemporary aesthetic balance, this chair will be a charming addition to a rustic-styled living room, kitchen, or dining room decor. Crafted entirely of precious wood, this chair stands out for its intricate backrest design, formed by three spindles elegantly flaring from a narrow base in a shape of a blooming flower. The combination of solids and voids creates a dynamic composition. The square cushion seat, upholstered in ivory fabric, is supported by sculptural tapered legs, connected by two lateral stretchers.
