DESCRIPTION

This classic chair is characterized by exceptional craftsmanship and modern aesthetic balance. The wooden frame effortlessly flows from the bold backrest to the curved architectural arms and into the flared legs. The chair stands out for its intricate backrest design, the concave silhouette distinguished by three spindles elegantly flaring from a narrow base reminiscent of a blooming flower, the combination of solids and voids creating a striking visual impact. The square cushion seat is upholstered in ivory fabric, a light design element that makes it suitable for indoor and outdoor decors.
