DIU FRUIT BOWL BY ETTORE SOTTASS

\$9,985

DESCRIPTION

Inspired by architectural forms, this superb object was designed by Ettore Sottsass for UpGroup in 1983. Composed of three elements that flawlessly capture the simple, organic beauty of the marble used: a base made of a solid black Marquinia disc with two raised rims, a body of smooth oval-shaped pink Portogallo and a top made of a stunning white Carrara marble with two rims in relief that recall the design at the base. The refined simplicity of the design and the polished marble of this object of functional decor will add a note of elegance to any environment. Used as decorative object to accent the home with its understated elegance, it will be a perfect housewarming or wedding gift.
