DOLOMITI MARQUINA MARBLE TALL COFFEE TABLE

\$2,120

DESCRIPTION

Either alone or paired with its low counterpart, the Dolomiti Marquina Marble Low Coffee Table, this piece will make a stunning effect in both a classic and a contemporary decor. The round top, with radius edges and a 2 cm thickness, is crafted of striking Black Marquina marble and is supported by a structure with three slanted legs merging at the center, lavishly coated in 24k gold. The black of the stone background, with its unique veins, and the warm glow of the gold create a superb piece of functional decor that will make a statement in a living room or study.
