DOMINO BEIGE ARMCHAIR

\$3,945

DESCRIPTION

A daring blend of modern aesthetic and expert craftsmanship, this armchair will be a timeless accent for both indoor and outdoor. From the Domino Collection designed by Marco Acerbis, this chair is defined by balanced forms: the sleek frame in teak and white powder-coated aluminum is adorned with two semi-rigid arm cushions and a seat cushion upholstered in a weather-resistant beige fabric. Cylindrical wood pieces on the sides of the frame help secure the soft arm cushions. Best paired with other pieces from the same collection, this armchair is also available in graphite and grey fabric. Contract and commercial certifications available upon request.
