**DOMINO ECOLOGICAL ARMCHAIR BY DAVIDE BARZAGHI**

\$4,245

## DESCRIPTION

This armchair is part of the Domino Collection, the quintessential modular system designed by Davide Barzaghi that allows multiple combinations and total customization. Crafted of ash plywood, the square frame of the modules is padded with non-allergenic, vegetable natural oil, officinal herbs, and goose feathers. The upholstery is fashioned of natural cotton fabric in a crisp white for the L-shaped seat and vivid blue for the arms and backrest units, one supported by a steel cylinder. This interplay of shapes and colors creates captivating variations that can be adapted to any interior need.
