DRAGONFLY EARRINGS

\$480

DESCRIPTION

18K gold-plated silver is the material used to craft the sinuous curves of this exquisite pair of earrings, that coil and wrap around each other in a sensual movement, accented with white rhinestones on both top and bottom. The standout element of the set is a round black enamel decoration, on which two dragonflies rest: a small one, and a larger one with sparkling wings decorated with white rhinestones.
