DRITTO RECTAGULAR COFFEE TABLE BY PIERO LISSONI

\$1,665

DESCRIPTION

Exclusively created by Piero Lissoni for Salvatori, this refined coffee table will enliven any living room or study with subtle elegance. Two asymmetric iron legs elegantly support the square tabletop, fashioned out of white Carrara marble. The curved underside and ultra-fine edges of the marble imbue it with uncommon lightness. The sinuous gray veining in the natural stone recalls the metallic finish of the man-made iron. This combination of materials and forms creates rich textural depth and visual contrast that makes this work truly one-of-a-kind. Table measures 40x40cm.
