## DRITTO ROUND COFFEE TABLE BY PIERO LISSONI

\$2,225

### DESCRIPTION

A combination of clear geometric lines and bold stone, the abstract design of this coffee table will infuse any decor with modern sophistication. The round tabletop is made of exquisite white Carrara marble, while the bold, supporting legs are fashioned out of iron. The angled, architectural legs elegantly complement the marble top, whose distinctive, curved underside gives the work a light, ethereal quality. Exclusively designed by Piero Lissoni for Salvatori, the table diameter measures 60 cm.
