DROP EXTRA LARGE VASE IN BRONZE

\$530

DESCRIPTION

This unique vase has a metal cylindrical structure that is partially covered with a leather accent whose texture strikingly contrasts with the smooth surface of the metal. The metal can be finished in chrome, brushed brass or brushed copper, or in brushed bronze, like in this case. A magnetic base guarantees perfect stability when the item is placed on its stand (sold separately) or on an iron surface. The color and type of leather can be customized.
