DESCRIPTION

This sophisticated and contemporary bed frame adds charm and a clean design to any bedroom. Its structure is made entirely of solid walnut and the natural pattern of its veins enrich its surface, adding a one-of-a-kind decorative element to the piece. The headboard is cushioned and upholstered with a fabric in contrasting light colors. The piece could be combined with the V Nightstand and the San Paolo Chest of Drawers, also in walnut wood, for a complete look. Mattress and cushions are not included.
