DUO OVAL MIRROR IN TEAL AND BEIGE

\$5,760

DESCRIPTION

Boasting an ethereal reflective surface evocative of a planet's mysterious surface, this modern mirror is a striking accent on any wall with its elegant geometry. The two round mirrors with brass-finished wooden support (also bronze) are handcolored with ink in contrasting colors (teal and beige) and overlapped to create a two-dimensional effect. A special spray is used to give this unique mirror a finishing aged flair transforming it into a true artistic object. Contact the Concierge for available customization in other shapes, sizes, and colors.
