EBONY AND MAPLE SPINNING TOP #3

\$310

DESCRIPTION

Exquisitely crafted on a lathe, this spinning top balances classic design with the unique color and texture combination of Camerun ebony (top) and Canadian maple (body). A collectible object worthy of display in a glass case, on a coffee table or a desk, this spinning top is entirely crafted by hand, each piece assembled, shaped with increasingly finer abrasive papers, and finished with a protective coating of high-quality oil and wax. The steel tip bears the "mauby&wood" logo.
