Daniele Nannini

EBONY-COLORED GORILLA SCULPTURE

\$880

DESCRIPTION

This stunning work of art is crafted entirely by Daniele Nannini as part of a collection of striking sculptures evoking the strength and majesty of nature and animals. Made of red clay, the piece is hollowed out to reach a thickness of 1 cm and subsequently sanded to reveal the curves and volumes of the gorilla. After a firing in the kiln, Nannini applies a black tempera paint and colored glossy wax finish the piece, which will be a stunning decoration to display in a modern or eclectic interior.
