EBONY TRAY WITH HORN HANDLES

\$1,130

DESCRIPTION

Elegant and versatile, this tray will be a lavish addition to a dining room or living room, where it can be used to serve drinks during parties or showcase flower arrangements or collectibles on a console or coffee table. The rigorous silhouette of the Macassar ebony frame boasts a glossy finish that highlights the wood's natural amber veins, which in turn complements the blond horn handles framed in nickel-plated brass. The piece has a soft velvet underside to prevent sliding and protect delicate surfaces. The horn may slightly vary in color from the one pictured due to its organic nature.
