ECENTRICO SMALL MARBLE DECORATIVE VASE

\$7,265

DESCRIPTION

This magnificent small decorative vase is entirely made in Grand Antique marble, a precious variety of black and white French marble made by processing natural stones with 5-axis pantographs. This technique makes it possible to achieve complex shapes such as this sinuous silhouette, part of the unNatural Collection by Giorgio Ragazzini. Contemporary and classic at the same time, this piece will complement any decor.
