## ECLIPSE DINING CHAIR

\$3,790

### DESCRIPTION

This striking leather chair is a modern revisit of the quintessential wingback design. Entirely upholstered in stunning ivory leather, the faceted black wood legs with brass-finished ferules support a cushioned seat with a high back. The defining element is the rounded top of the backrest that has two wing-like elements on both sides that give it an original look. This statement piece maintains the classic essence of a formal tall-back, adding an elegant and modern flair.
