EDITH GREEN STOOL BY MASSIMO BROGLIO

\$1,255

DESCRIPTION

A Scandinavian-inspired design by Massimo Broglio, this versatile stool will perfectly suit both residential and commercial interiors. Crafted of beechwood and ash, its structure boasts a delicate green hue and comprises four legs marked by a slim silhouette and a round-end, slightly slanted and connected with horizontal bars that function as a footrest. The welcoming backrest complements the design of the comfortable, padded seat of multi-layered wood upholstered in a refined blue-green fabric.
