Ceramiche Lega di Martina Scarpa

EGYPT GRAFFITO BOWL

\$1,030

DESCRIPTION

Handcrafted of ceramic with a round and shallow shape, this exquisite bowl revisits traditional pottery techniques through a modern lens. The colorants used are mixed with copper and silver nitrate and, through reduction firing at high temperatures, give the piece an iridescent glaze of rare charm. The design is obtained with the graffito technique and features a brown background with concentric rings in beige and ivory gradients, vitrified with a final firing at a temperature of 950°C. The perfect centerpiece on a coffee table or console, this piece will make a statement in any decor.
