Laura Meroni

ELEMENTO TABLE

\$40,850

DESCRIPTION

The unique and eye-catching design of this table combines Port Laurent marble and extra-clear crystal to reveal a light and sophisticated effect that make this table the focal point of a minimalist dining room. The modular structure combines alternating stone and crystal slats (measuring 15, 30, 45, and 60 cm) and is supported by a glass base for a gravity-defying effect. More elements can be added to create an extended top, whose parts seamlessly link together. The crystal slats can be opened to insert collectibles. Please ask the Concierge for customization options.
