ELEPHANT MEDIUM SIDE TABLE

\$2,105

DESCRIPTION

Part of a series of side tables that are versatile and practical as well as unique and eccentric, this piece combines a traditional structure with modern decorations resulting in a one-of-a-kind object that can be displayed alone or along with others by the same designer. The squared top is painted in a dark brown color that is slightly lighter than the stain on the wooden piece, while a single light brown band runs parallel to one of the sides.
