ELLA WALNUT SIDEBOARD

\$13,390

DESCRIPTION

Entirely made of canaletto walnut, this modern sideboard will be suitable for a contemporary home. A striking piece of functional decor, it rests on four legs connected with horizontal thin elements. Its unique texture is directly inspired by the world of fashion, since the surface of its front panels is milled to resemble pleated fabric. This effect is reproduced on both sides, giving this piece incredible versatility. It is possible to customize the interior with crystal or wooden shelves and with the addition of an extractable tray. Please ask the concierge for details.
