### ENVIE MOSAIC TABLE LAMP

\$10,540

---

#### DESCRIPTION

Inspired by the roman and byzantine mosaic art, small irregular cubes in massive ebony wood, are assembled to create austere forms, where the refraction of the light designs a spectacular pattern, never seen before in a lighting object. The relief of the Rubelli lampshade's fabric is produced expressly for this table lamp recreating the forms and the color of the base. The details in patinated brass function as a touch switch by means of sensor that dim the les circuit.
