## ERCOLE 8-LIGHT CHANDELIER

\$1,860

### DESCRIPTION

A truly spectacular mid-century design, this chandelier is handmade of polished copper with eight tubular arms connected at the base and radiating from a center stem, each holding a clear glass globe that hosts the light source (LED E27 max 7W). An exquisite example of modern design and expert craftsmanship, this piece will infuse dynamic charm into any room. The angular design of the arms and the clean minimalist-style silhouette make it the perfect lighting piece to display over a dining table or coffee table.
