ESTER SIDE TABLE IN STAINLESS STEEL AND POWDERED CLAY

\$1,550

DESCRIPTION

This side table can be used by a sofa or as an accent table, or paired with others from the same series that come in different heights. The base and structure are in stainless steel (either brushed or polished), and the top is coated with clay whose color can vary from white to brown depending on its chemical composition. The contemporary use of materials and shapes strikingly complements the natural warmth of the clay, making this piece suitable for any decor.
