## EUCALYPTUS CABINET

\$18,360

### DESCRIPTION

The streamlined style and distinctive, vertical wood grain lend a sculptural presence to this horizontal, 4 doors wooden cabinet. Precious inlays in dark horn grace the handles in hand-engraved gunmetal brass, creating a refined interplay with eucalyptus wood's characteristic veneer, for an elegant contrast of texture and tone. Three inner shelves in tempered, extra clear glass are designed for storage. This piece is customizable in finishes and dimensions. Please ask the Concierge for options.
