EVA LUXURY TEXTURE FLORAL RED MONEYBOX/SCULPTURE

\$1,060

DESCRIPTION

Where art meets contemporary sensibility and biblical references, there stands this eccentric moneybox, playfully shaped like a minimalist apple as an homage to the forbidden fruit from the Garden of Eden. The intricate, red floral motif emerging from the pure-white surface is obtained thanks to a specific technique where precious metals are applied and then removed from the surface to lend it a silky texture.
