EXAGONO BRASS COFFEE TABLE

\$4,560

DESCRIPTION

This sophisticated coffee table features a hexagonal base in oxidized iron from which its legs stem diagonally to connect to the corners of the hexagon that directly supports the top. The top is in multi-ply wood with a cover in triangular sheets of acid-etched brass merging at the center. The striking one-of-a-kind colorations and spots of the brass create an elegant effect that gives character and uniqueness to the piece.
