EXECUTIVE CHAIR

\$875

DESCRIPTION

Large enough to be a love seat, this armchair is versatile and modern and will be a perfect complement to an entryway, or a charming accent in a small living room or in the bedroom. Simple and linear, this piece is made of solid beechwood with sides, back, and seat cushioned and upholstered to create a striking texture contrast with the wood. The seat is particularly comfortable, thanks to its elastic straps mounted underneath. The upholstery matches the color of the wood, but it is also available in other colors in cat. B fabric (please ask the concierge for details). Contract and commercial certifications available upon request.
