### EXO SET OF ARMCHAIR AND OTTOMAN

\$5,120

#### DESCRIPTION

Designed by Alberto Colzani in 2013, this set of armchair and ottoman will add sophistication and a pop of color to a modern living room or study. The polyurethane core creates the sinuous, enveloping shape of the chair, that is mirrored in the folded silhouette of the ottoman. With no internal support, the polyurethane body and the cowhide that upholsters it, sewn together, become one and are both surface and structure, creating a piece that follows the movement of the body. The upholstery is available in 30 colors - please ask the concierge for changes.
