EYE LUMINUS SCONCE

\$2,380

DESCRIPTION

Part of the Eye collection of home decor pieces with a striking shape that evokes the silhouette of an eye, this sconce is a bold combination of high density wood (a very resistant material with a warm look) and two types of onyx: green glory and sunset orange. The precious stones add a luminous vibration to the piece, creating stunning reflections with the light filtering through it. This piece is a superb addition to a contemporary entryway, powder room, or hallway.
