EYES OIL AND VINEGAR BOTTLES

DESCRIPTION

This sophisticated and modern oil and vinegar set is a fine addition to any dining table. Four rounded feet are welded to the bottom of a hand-folded tray with hammering along the outer rim. The central stem is capped by a textured ovoid handle. The hammering technique contributes both to the finish and the shape of the two containers. Two different knobs, suggestive of the letters O and V for Oil and Vinegar, differentiate the two lids.
