F4 TT05 LIGHT-BLUE CHAIR

\$1,515

DESCRIPTION

This chair flaunts a sculptural silhouette consisting of intersecting panels marked by soft curves inspired by the basic design of round head nails ("chiodi a testa tonda" in Italian). This outstanding design piece is created in collaboration with Rezina for the finishes and Kirkby for the round seat's fabric upholstery. The choice of a delicate shade of light-blue as a lacquer for the wooden frame delivers a sense of serenity and allows for great versatility among color palettes.
