BLACK AND WHITE CHAIR WITH ARMRESTS

\$1,240

DESCRIPTION

A modern take on a classic Rococo style, this chair is an ideal accent for a living room, study, or bedroom decor. Fashioned entirely of wood, it is crafted in the Queen Anne style, evident in the scalloped top rail, tall back, curved armrests, and delicately curved front legs. The backrest and seat are upholstered in an elegant brown floral fabric while the legs feature a flared frond motif in a dark brown veneer for a delicate finishing touch. Showcased alongside other chairs from the same designer, this piece will make a statement in any decor.
