FAGGIO CERAMIC SCULPTURE BY NATHALIE DU PASQUIER

\$590

DESCRIPTION

Drawing inspiration from a classic bottle shape, this vase combines a series of shapes in bold colors: from the white round base to the red body composed of two truncated cones. The top is a turquoise cylinder that stands in sharp chromatic contrast and yet is cohesively linked to the design. This vase by designer Nathalie Du Pasquier is more an art object than an ordinary vase and will make a stunning display on a console or table in a modern and contemporary interior decor. Materialism Collection.
