FERRARI CHAIR

\$5,760

DESCRIPTION

A tribute to the iconic Italian Ferrari car, this chair conveys a sense of movement and speed. The poplar plywood back features the shape of the Ferrari along with the brand chess flag. The seat, elegantly shaped to reflect the figure of the wheel, is made of epoxy resin and is enriched by black stones and metal elements as decorations and stands on minimalist hand-forged iron legs with black powder coating. Hand-finished with water-based paint. This is a one-off piece not reproducible and not customizable. Fire-stamped signature and certificate of authenticity included.
