FESTON E CADENA PLATE

\$310

DESCRIPTION

Accented with a 24k gold rim, this plate features an exquisite pattern entirely executed by hand with gold cloud-like shapes arranged around a circle dotted with vibrant red wisteria leaves. One of the iconic decorative motifs used by Cozzi since the factory's establishment in the 18th century, this plate transforms dinnerware into a true work of art for the table, making a superb centerpiece to serve and display dessert, or used in multiples as chargers paired with coordinating linens. This piece measures Ø 33 cm and comes in an elegant gift box. Made to order (approx. 4-6 weeks).
