Paola Paronetto

FIDE LISCIA WHITE DECORATIVE BOTTLE

\$605

DESCRIPTION

Part of the Fide series of sculptures, inspired by the majestic architecture of the cathedrals, this bottle-shaped piece is handcrafted in Paronetto's signature paper clay, a clay base with paper pulp and natural fibers. The silhouette rises from three tiers of round shapes in decreasing size, with a textured surface of vertical segments. The bright white color adds an ethereal flair to this unique still-life object that can be displayed with other pieces from the same designer for a refined look.. Every one of Paola Paronetto's creations is unique. Slight variations in shape, colour and size are to be considered a guarantee of authenticity and value. They are finished with non-toxic satin-finish enamels. Although very rarely, it is possible for them to leak after long periods of exposure to water. It is therefore advisable to test their water resistance before using them on delicate surfaces. They should not be used as dining utensils. The white pieces can be washed with water or sanitizing products, whereas the coloured pieces must be treated more gently and cleaned with a feather duster or a soft cloth, dry or moistened very slightly

with water.
