**FILI MEDIUM COOLER/ICE BUCKET WITH LID**

\$900

## DESCRIPTION

More than a regular cooler or ice bucket, this porcelain masterpiece reproduces the original 18th-century *“vaso da giaccio con anima”* designed by Geminiano Cozzi. Originally intended as a fruit cooler, this piece is composed of two parts: a champagne ice bucket with handles (17 x 15.5 H cm) and a top lid (17 x 5.5 H cm) to hold and display fruit or flowers on a special table. A platinum and blue line along the rims, base, handles and triangular finial adds a refined contrast on the crisp white porcelain body. This exclusive piece comes in a signature gift box. Made to order (approx. 4-6 weeks).
