FISH YELLOW CHAIR

\$1,440

DESCRIPTION

Part of the Fish collection, this chair is a sophisticated and rustic addition to a minimalist interior, where it will be eye-catching next to a modern dining table, flanking an entryway mirror, or behind a desk. It is crafted of poplar plywood and ash plywood and painted with a bright yellow color. Its shape is simple and evokes, in the tall back, the stylized silhouette of a slender fish with its tail up in the air. This piece is also available in other colors.
