FLOATING FEATHER SCULPTURE

\$1,080

DESCRIPTION

Masterful in its simplicity, this mixed-medium sculpture embodies the subtle sophistication of the natural world. Part of the Feather Collection, this piece is entirely handmade of ceramic finished with a patina of bronze and silver oxides, which gives it the distinctive look that mimics the natural aging of the metal. The lightness of the feather is juxtaposed to the heaviness of the materials and finishes, resulting in a captivating piece of functional decor. The feather symbolizes time and embodies the "carpe diem" motto, the perfect gift for an art lover or antiquity enthusiast.
