## DESCRIPTION

This unique pair of earrings is part of the Il Giardino Giapponese (The Japanese Garden) Collection. A modern interpretation of the asymmetric harmony of traditional Japanese aesthetic, this set is conceived to be a dynamic addition to a modern wardrobe. The two seemingly identical pieces feature a reversed U-shaped structure in gold-plated silver that contains an inner chain in rhodium-plated silver from which hang two straight gold-plated elements topped by spheres in the same finish. The chains move freely around the structure, creating a stunning effect that changes at every movement.
