## FLOWER BLACK RUG

\$7,910

### DESCRIPTION

An homage to classical still life paintings, this rug evokes timeless elegance and refinement that will suit any decor. The piece, hand-knotted in India with wool and bamboo fibers, features a bold, central bouquet with pink, red, and blue roses flanked on four sides by individual roses. The border is outlined by delicate fronds and accented by eight stunning rose motifs in the corners and on the center of each side. The stark, black background enriches the vibrant colors of the flowers, creating an elegant visual effect and textural dimension. Entirely customizable.
