Falegnameria Helmut Santifaller

FLOWER CHEST

\$19,280

DESCRIPTION

A stunning piece of functional decor, this chest is inspired by the gothic style of the Elsass region in France, bordering with Germany. Its one-of-a-kind allure comes from the larch used to craft it, which is 400 to 600 years old. The hand-carved ornaments on its front and top will imbue a home with a warm and rustic ambiance. The piece opens automatically by pushing a button on the side, thanks a hydraulic system (also available with a remote control upon request). This piece can also be made in a smaller size - please ask the Concierge for details.
