FLOWER WHITE RUG

\$7,910

DESCRIPTION

Reminiscent of classical still life paintings, this rug is an elegant union of Southeast Asian craftsmanship and traditional Italian motifs. Hand-knotted with wool and bamboo fibers, a bold central bouquet with pink, red, and orange roses is set against a white panel background. A solid border in a subtle pink frames the central motif, outlined by a delicate stream of fronds and accented by colorful roses. Entirely customizable to suit any taste, please contact the concierge.
