FLUID RIBBON RED CHAIR BY MICHAEL D'AMATO

\$1,410

DESCRIPTION

The simple and ergonomic silhouette of this red-lacquered chair is designed to provide ultimate support and exceptional comfort in a stylish and aesthetically harmonious piece. Designed by biomechanical engineer Michael d'Amato, this chair is handcrafted of a single piece of aluminum bent in a cantilever style with a central cut that gives flexibility to the seat allowing the body to make small, continuous movements. The seat is 46 cm high.
