## FOOTED TALL BLACK CON-CRETI BOWL

\$540

### DESCRIPTION

Combining Western ceramics techniques with Eastern traditions, Leandri has created the Con-Creti series of bowls that will enrich any interior with timeless sophistication. Both a decorative piece and a functional vessel to display fruit or flowers, this bowl is handcrafted of ceramic using the traditional Japanese raku pottery technique. The cracked outside sharply contrasts with the smooth finish of the black enamel-glazed interior. The base supporting the bowl measures 2 cm and, while the diameter indicated refers to the wider part of the bowl, the mouth has a diameter of 14 cm.

### DETAILS & DIMENSIONS
