FOURMOSA CONTAINER WITH DOORS

\$5,760

DESCRIPTION

This unique container is part of the Fourmosa Collection, introduced at Milan Design Week 2019. It is part of a modular system of trapezoid pieces, but its unique silhouette can be displayed as an accent piece in a modern interior in need of storage space and sleek furniture. The coffee-finished wood structure is supported by brass legs, which occurs also in the two handles with their minimalist allure.
