FRANK BAR STOOL BY MARKUS JOHANSSON

\$1,175

DESCRIPTION

A familiar shape reinterpreted with modern details, this low stool is designed Markus Johansson for Mogg. The streamlined design is brought to life with ash wood planks of different sizes arranged in a harmonious and stable structure. The tapered architectural legs support the dainty seat, whose angular design is obtained by interlocking the wooden planks. Brimming with rustic allure, this stool can be used anywhere in the home as additional seating around a kitchen island, wine bar, or outdoor patio. Available in a natural or lacquered finish.
